

Let's Talk of Something of More Immediate Importance Than Shop

Marines Wanted

By the United States Govt.

*Is the Purpose of This
Advertisement of Berberich's*

WE believe in "business," as usual. We also believe there are times when patriotism demands that we forget business and devote ourselves to higher things. Our country needs us. It needs every man to perform a duty. Some on the farms, some in the factories and others under "Old Glory," are needed to defend our glorious land from an alien enemy.

Our Country Calls!

Marines are wanted! The Retail Merchants' Association has planned to aid enlistments. Berberich's endorses this campaign and contributes this space to the project.

The Marines are America's strong right arm of defense. They see service on land and sea. They are the picked men who are called first into action.

Young men—if the red blood of Americanism runs in your veins, if you are truly proud of the great and glorious country of which you are a son, if our Flag means more to you than just a piece of bunting, **JOIN THE MARINES!**

Come to your country's defense. Join the men who have the first chance for glory and honor.

Prove your right to the title of American by defending America. Join the Marines.

*The Marines Carry "Old Glory" on
Land and Sea. The Marines
are First in Action.*

*Do Your Duty---
Join the Marines!*
